Milan just opened an office with a public courtyard.

Orsole 4 in the Cinque Vie: eight floors rebuilt in almost three years, next to the Roman theatre, courtyard open to the public by day.

What deserves a prime square metre?

The best offices open onto the city.

A landmark office opened its doors, while the cost of prime space kept rising.

8 floors
rebuilt at Orsole 4 in almost three years

+4.7%
prime office occupier costs in a year, across 47 cities

26%
of the working week spent neither in the office nor at home

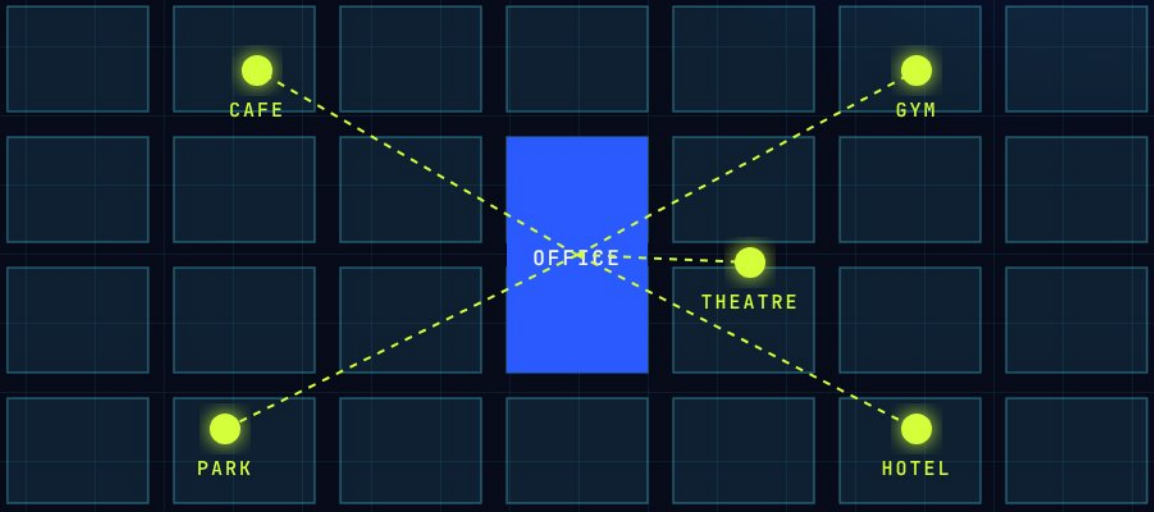

EUR 1,250
per sq m, a medium-spec fit-out in Milan

What only the office can do: bring people together.

High-spec fit-outs now give more than a quarter of the floor to meeting and collaboration space.

Don't build the city inside. Open the door to it.

Open
connected to its street

Invest
where only the office delivers

Gather
space for people, not desks

What would you keep inside, and what would you leave to the city?

Tell me how your office does it.
